(Dimensions in millimeters)

Our standard

Precise, punctual, perfect

Our strenghts

Broad range of profiles, »Super Finish« surface

Our vision

Only those who move stay at the top.

The illustrations, drawings, dimensional and weight data and other information included in this brochure are intended only for the purposes of describing our products and represent non-binding average values. They do not constitute quality data, nor can they be used as the basis for any guarantee of quality or durability. The applications presented serve only as illustrations and can be construed neither as quality data nor as a guarantee in relation to the suitability of the material. This cannot substitute for comprehensive consultation on the selection of our products and on their use in a specific application. The brochure is not subject to change control.

PRECISION WIRE – PRECISION AS TRADITION

More than 4,000 geometries go into creating a profile
Zapp Precision Metals GmbH, the specialist for precision profiles and flat wires offers more than 4,000 geometries for all industries and is a renowned supplier of eye rim profiles and fret wires for guitar and model rail tracks.

Dimensions and tolerances

With profile thicknesses of 0.0016 – 0.16" (0.04 – 4 mm) and profile widths of 0.016 – 0.39" (0.04 – 10.00 mm), (in the ratio 1/10), we are your ideal partner for close tolerances, if you have special requirements regarding geometries, dimensions and tolerances.

Wide choice of material

You can choose from a wide range of materials e.g. monel, stainless steel, titanium, heat treatable alloys and others. We supply our profiles with our special »Super Finish« surface for optimized further processing. Repolishing and the scrap rate can be minimized thanks to this surface.

Flexibility

With our own in house tooling department, we provide our clients with a thorough product feasibility check and can realize new geometries within the shortest possible time, at a reasonable cost, for any industry and application. Your demand is our inspiration.
